5. REMARKS AND OTHER RELEVANT INFORMATION:

This change request is identical to a seasonal change application filed for the 2011 season.

This change request is one of two change applications for the 2013-2014 irrigation seasons that ConAgra is requesting in cooperation with Lake Wallula Vineyards. One application each for portions of Certificates S4-01228C and SWC 9974--portions owned entirely by Wallula. It is also noted that approved changes apply to both Certificates also owned entirely by Wallula. ConAgra is leasing these rights from Wallula for the 2013-2014 irrigation seasons with the exception of 0.11 cfs and 16 af/yr from S4-01228C/change. Wallula is retaining these quantities to irrigate approx. 8 acres. ConAgra is filing these changes and seeking assistance from Ecology in pursuing the seasonal changes in the most expedient fashion that maximizes available rights.

In concert with this application, for the 2013-2014 seasons each right is planned for participation in the trust water right program, expressly for instream flow within the benefited reaches, and as deemed necessary by Ecology. Quantities requested for seasonal change:

\*\* Lake Wallula Vineyards will retain 8 acres of irrigation, 0.11 cfs and 16 af/yr.

The proposed water source for both applications for 2013-2014 will be via diversion from the Columbia River. Existing station located approximately:
